RE: Ligare Pty Limited

CSIRO Publishing have used Ligare for book printing requirements since 2000, and I personally have worked with them from late 2002. They have produced many titles for us, in both cased and paperback formats, with predominantly mono, but also some full colour printing.

Our experience with Ligare has been highly satisfactory. The standard of print has been consistently high, and our titles have been delivered on time and on budget.

The process of each book has been effectively communicated, with regular updates and immediate notice of any concerns. This communication has been greatly valued, as we can then provide our customers with accurate information. Ligare have also been able to provide us with technical assistance in preparing files and artwork for print.

I would recommend Ligare as a book printer and will not hesitate to use them for future CSIRO Publishing titles.

Kind regards

Briana Elwood

Editorial and Production Manager
